Summary

Computer Science and Engineering graduate with strong foundations in Java, Data Structures and Algorithms, and software development. Interested in building practical software solutions and solving challenging problems through code.

Education

Vellore Institute of Technology, Amaravati B.Tech Computer Science and Engineering (CSE) CGPA: 8.92	2022 – 2026
Shri Shirdi Sai Junior College Intermediate (MPC) Percentage: 83.4%	2020 - 2022
Sri Prakash Vidyaniketan English Medium School 10 th Standard (CBSE) Percentage: 87.6%	2020

Skills

Programming Languages: Java, SQL, Python, JavaScript, HTML, CSS

Framework & Tools: React, Node.js, Express.js, MongoDB, Git, Postman

CS Subjects: Data Structures and Algorithms, Object Oriented Programming, Operating Systems, Database Management Systems, Computer Networks

Soft Skills: Time Management, Adaptability, Problem-Solving, Quick Learning, Team Work

Projects

Interview-AI – Full-Stack AI Interview Preparation Platform

- Built a full-stack platform that personalizes interview preparation by analyzing a candidate's resume, self-description, and target job description.
- Developed an AI-driven interview analysis workflow that transforms unstructured candidate information into a structured preparation report tailored to the target role.
- Implemented a secure end-to-end user workflow for authentication, resume PDF processing, AI report generation, and persistent storage of personalized interview reports.
- Made using: React.js, Node.js, MongoDB, Gemini AI

Hate Speech Detection – NLP & Deep Learning Model

- Built a text classification system to identify and classify hate speech from social media text using natural language processing techniques.
- Developed a preprocessing and feature extraction pipeline to transform raw text into meaningful representations for machine learning and deep learning models.
- Evaluated and compared multiple models, including RNN, LSTM, and SVM, to analyze their effectiveness in detecting hate speech.
- Made using: Python, NLP, RNN, LSTM, SVM

Certifications

- **Java Data Structures and Algorithms** – IamNeo

Extracurriculars

- Collaborated on team projects, enhancing teamwork, problem-solving, and communication skills.
- Managed documentation for college club events, ensuring accurate records and smooth operation
